Featuring the Third Graduating Class

Plymouth-Whitemarsh High School

Plymouth Meeting, Pennsylvania

We Dedicate . . .

In grateful recognition of your efforts to improve the scholastic, athletic, and moral standards of Plymouth-Whitemarsh High School, we, the class of nineteen hundred and fifty-eight, do dedicate our Milestone to you, Mr. Rodger T. Dombrow.

Foreword

Looking back on this past year, we think of the many changes that our school has seen since it first opened its doors. At last our school building is completed, with a new junior high building and an auditorium added to our former building. A new football field can be seen in the back of the school. All these physical changes and changes in our enlarged administrative, scholastic, and activity programs constitute our theme for this year, THE NEW LOOK.

Many other things come to mind when we, the Class of 1958, think of our wonderful senior year here. We remember a very important occasion at Plymouth-Whitemarsh—the birth of our school spirit. There was never a more welcome sight than that of "our boys" being cheered by our student body as they played a tough football game here at home.

An interested faculty and wonderful facilities combined to give us a fine education. Yes, we have learned a great deal at Plymouth-Whitemarsh, not just material from a textbook, but a way of life—a very fine code of ethics and morality. This includes, as it states in our Alma Mater, "a belief in God and freedom, future without fears."

This is our heritage which we will carry with us when we leave, a heritage instilled by you, our Alma Mater, Plymouth-Whitemarsh High School.

Your achievements and interest in Plymouth-Whitemarsh are deeply appreciated, and will long be remembered by those students who follow in your footsteps.

Principal

"Education is the leading of human souls to what is best, and making what is best out of them; and these two objects are always attainable together, and by the same means. The training which makes men happiest in themselves also makes them most serviceable to others."

—JOHN RUSKIN on the *Benefits of Education*

The class of 1958 will long be remembered for its outstanding contributions to the student body of Plymouth-Whitemarsh High School. The leadership and services you have given to student organizations and projects, are attributes which will be major assets in your future endeavors. Such attributes, coupled with a sound educational background, will enable you to make valuable contributions to your church, community and future vocation. With such service, I am sure, the many blessings of our life in a free society, will be bestowed upon you and your families in the years ahead.

The student body of the Junior High School manifests its influence through this representative assembly. This group's primary purpose is to be of service to the school. Because of this, the group was of great assistance in such activities as the Christmas Dance and in the operation of the coat check system. In February this organization set up a hall marshal system to alleviate congestion in the junior high building.

This year Student Congress assumed the responsibility of the school store.

To promote service, leadership, scholarship, and citizenship is the purpose of the National Honor Society.

The Cardin D. Brown Chapter of the society originated three years ago. Since then it has grown and now has seventeen members.

A project for this year was to aid the music department with the Southeastern District Choir Concert. Also a dance was held in October to honor the dedication of our football field.

In the spring a tea is given to honor new members and their parents. A banquet later on honors seniors of the society.

A picture of David Wilson, treasurer, was not available.

MRS. SHIRLEY COCKLEY
Milestone Adviser

The able assistance of our sponsor, Mrs. Cockley, enabled us to profit by her wide experience.

Arlene Ford, Editor-in-Chief, has carried much of the responsibility of the yearbook.

The Milestone staff of 1958 worked diligently to meet the appointed deadlines. On many occasions a small group of staff members labored to complete the Milestone.

Almost every four weeks students at Plymouth-Whitemarsh get to read all the news of the school when they buy their copy of the TOWN CRIER. Long hours of hard work by the twenty staff members and the two advisers make the paper possible. Most of the time the writers, editors, and advisers are together only to get the paper to the press, but in March they spend an enjoyable weekend together in New York City while attending the Columbia Scholastic Press Convention.

Long work sessions such as this are responsible for the good quality of our school paper.
